

Ice and Rain Guard

Ice and Rain Guard is an SBS modified self-adhering membrane reinforced with non-woven fiberglass mat for extra strength and durability. IRG is a highly versatile underlayment that provides superior waterproof integrity and is an excellent second wall of defense against wind driven rain and seepage due to ice damaging.

Product may be left exposed 60 days prior to final roof application.

For use on decks 2:12 and greater.

BENEFITS

- Offers a skid resistant, aggregate surface
- Allows for easy installation and handling as a result of silicone treated split back release film
- May be installed directly to plywood, wood composition board and gypsum.
- Self seals around nails
- May be used in new construction or re-roofing
- Offers greater tear resistance than traditional felt underlayment
- Provides protection for critical areas such as rakes, eaves, valleys, flashings, hips, ridges, dormers and skylights
- Florida Approval (FL#30520)

SPECIFICATIONS

Meets ASTM	1970
Thickness, min	45 mils
Maximum Load, min	MD=35 CD=35
Elongation at Break, min	10%
Seal-ability around nail	pass
Rolls per Pallet 2SQ (label)	25
Roll Weight	61 lb +/- 2 lbs
Square Feet	195
Available roll dimensions	36" x 65' (195 sqft)
