Z-01-24

GENERAL INFORMATION

Property Owner (x) Petitioner (x)

NYN, LLC

Requested Action and Purpose

Rezone from BH to BN to allow for a beauty supply retail store.

Location and Existing Zoning

719 Skyland Boulevard East - Zoned BH

Size and Existing Land Use

0.91 acres total; Vacant bank.

Surrounding Land Use and Zoning

North – Commercial, Zoned BN East – Commercial, Zoned BH South – Motel, Zoned BH

West - Commercial, Zoned BN

Applicable Regulations

Sec. 24-51: Statements of Intent

BN Neighborhood Commercial Districts: This district is created to provide minimum standards for the development and use of retail and service establishments concentrated at convenient locations throughout the city and intended primarily to serve local residents. While the Zoning Map of Tuscaloosa recognizes the existence of extensive strips of land devoted to such uses along major streets, it is intended to encourage the clustering of such uses into properly designed shopping centers in future development.

See end of report for table of permitted uses in the BN zone.

Transportation

Skyland Boulevard East, a Principal Arterial street; McFarland Boulevard East, a Principal Arterial street.

Physical Characteristics

0.91 acres to be rezoned. The property is currently zoned BH with a vacant bank on the site; commercial use to the north, east, and west, and a motel to the south.

SUBJECT PROPERTY

ANALYSIS

In Framework, this property is identified in the Future Land Use and Character Map as Corridor Commercial (CC) (p. 22).

CC areas include "a wide range of retail, offices, and services in a generally car-oriented pattern. This type of development tends to serve the larger community, is typically located along major corridors or intersections, and may include regional destinations, such as shopping malls and car dealerships." (p. 29).

While the Zoning Ordinance updates have only recently begun as part of the Framework process, building blocks were outlined to serve as a general guide to the intended scale and character of development. For CC, building blocks include (p. 29):

- Height range: 1-5 stories (generally up to 60 feet).
- Building form: Predominantly single story, but commercial buildings may have 2-story appearance. Includes large footprint buildings and both attached and freestanding structures.
- Building setback: Varies.
- Streets: Blocks are long and have fewer street connections than in the mixed use districts.
- Transportation: Primarily automobile, but site design should consider transportation alternatives.
- Parking: Surface lots.
- Open Space: Passive preserved land and landscaped setback areas, generally private.

Framework is organized into six broad theme chapters, reflecting the inter-relatedness of issues. Each chapter is supported by a goal and several objectives that serve to organize the 111 specific actions in the Plan. The Growing chapter provides guidance for the physical development, infrastructure improvement and stewardship of natural resources with the following Goal (p. 10):

Well-managed land and infrastructure that includes revitalization, strategic growth, and stewardship of the natural environment, creates an appealing community character, and promotes the city's long-term financial health.

The intent of the CC area is as follows:

- Accommodate a wide range of commercial uses.
- Concentrate future commercial development at major intersections.
- Encourage new buildings to be located near the primary street on at least one side or on an internal street, with parking areas consolidated between buildings in a configuration that can be shared by multiple tenants or uses.
- Apply zoning districts that are appropriate for a site's context such as a highway corridor or a more urban corridor.
- Provide connection to surrounding pedestrian path networks and provide for safe pedestrian facilities within sites.
- Provide connectivity to surrounding neighborhoods and transit service locations.

The Zoning Ordinance Revision Project is currently underway, will be city-wide, and will revise all zoning districts and standards.

Notification was sent via USPS to property owners located within 500 feet of the subject property.

SUBMIT FORM

Project Narrative: The property will be operated as a Beauty 4 Less retail store. Beauty 4 Less sells general beauty supplies. Retail uses are not allowed in the current "BH" zoning district, so a rezoning to "BN" is

requested.
