

Proposed Typical Roadway and Bridge Sections along Stillman Blvd from Martin Luther King Jr. Blvd to Nick’s Kid’s Ave

## Proposed Project Goals

- Remove the existing bridge structure built in 1938 on Stillman Boulevard over the CPKC Railroad (operated by WATCO Alabama Southern Railroad) and replace it with a new bridge designed to current structural and geometric standards.
- Widen the existing 10-foot-wide travel lanes to 11-foot-wide travel lanes.
- Improve side streets that intersect Stillman Boulevard to meet the new grade over the CPKC Railroad (operated by WATCO Alabama Southern Railroad).
- Add a 10-foot-wide multi-use path and 5-foot-wide sidewalk to improve pedestrian access
- Relocate existing overhead utilities to accommodate the modified road and bridge.

## Proposed Project Location
