## Our Investment Strategy

Our charitable gift annuity portfolio is managed with a time horizon of five or more years. Time horizons this long require different choices than most private investors have made for their personal situations. The goal is to achieve an investment return that exceeds the required fixed dollar annuity payments for the charitable gift annuities over the expected life expectancies of the annuitants. The portfolio is guided by a detailed formal Investment Policy Statement (posted on our website). The target rate of return over rolling five year time periods for the Growth & Income Pool is 5.00%.

## Asset Allocation Strategy

## Growth & Income Pool Size:

**\$281,364**

**Our Mission: To achieve positive change through the generosity of donors, now and for generations to come.**

1. Mason Investment Advisory Services, Inc. (MIAS) was hired by the Community Foundation in January 2016. The performance start date for MIAS is January 31, 2016. Performance is displayed net of all investment management fees, reflects the reinvestment of dividends and is calculated using the time-weighted return method. As of 06/30/19, the advisory fee paid to Mason was 0.29% and the total expenses paid to the mutual funds and ETFs was approximately 0.33%. Prior to January 2016, Kaspick & Company were the investment consultants for the Foundation; Growth/Income Composite returns provided by the Foundation.

2. 52/48 Domestic Stock Bond Mix derived from 52% of the Wilshire 5000 Total Market Index and 48% of the Barclays Capital Aggregate Index.

3. 52/48 Global Stock Bond Mix derived from 52% of the S&P Global BMI Index and 48% of the Barclays Global Aggregate Index

\* Performance of both of the stock/bond mixes is presented net of the average annual ETF and index fund expense ratio prorated monthly. This was the average expense ratio of all 3,200 ETFs and Index Funds included in the Morningstar database as of 12/31/15, which was 0.73%.
