SUBJECT PROPERTY

ANALYSIS

In **Framework**, this property is identified in the Future Land Use and Character Map as Traditional Neighborhood, Edge (TN2) (p. 22).

TN2 areas include “Tuscaloosa’s mid-20th century neighborhoods and modern developments that are primarily single family housing on average size lots developed in a connected street network. Compared to core areas, these neighborhoods have a more uniform housing pattern with larger average lots and longer blocks, that are more car-oriented. These neighborhoods may include areas of small-lot, attached or multi-family dwellings that have a single family scale. They also may feature parks and schools within the neighborhood and may be connected to commercial areas.” (p. 34).

In the Framework comprehensive plan, building blocks were outlined to serve as a general guide to the intended scale and character of development. For TN2, building blocks include (p. 34):

- Height range: 1-3 stories (generally up to 35 feet).
- Building form: Variety of building types and sizes clustered and grouped but linked by a connected street network.
- Building setback: 10-30 feet, generally consistent within a block.
- Streets: Blocks are small and walkable. Streets form an irregular grid system within the neighborhood; may include alleys.
- Transportation: Automobile access with complete sidewalk network; recreational trails.
- Parking: On-street and private off-street; may include front-loaded or alley-loaded garages.
- Open Space: Preserved passive open space, neighborhood parks, pocket parks, private yards.

Framework is organized into six broad theme chapters, reflecting the inter-relatedness of issues. Each chapter is supported by a goal and several objectives that serve to organize the 111 specific actions in the Plan. The Growing chapter provides guidance for the physical development, infrastructure improvement and stewardship of natural resources with the following Goal (p. 10):

Well-managed land and infrastructure that includes revitalization, strategic growth, and stewardship of the natural environment, creates an appealing community character, and promotes the city's long-term financial health.

The intent of the TN2 area outlined on pg. 34 is as follows:

- Provide vehicular and pedestrian connections to adjacent neighborhoods where feasible.
- Allow residential infill that fits-in with neighboring homes (building scale, placement, etc.).
- Accommodate front-loaded or alley-loaded garages.
- Support neighborhood-scale commercial uses located at the edges of a neighborhood.
- Encourage shared open space features within the neighborhood.

Notification was sent via USPS to property owners located within 500 feet of the subject property.
