Target Rate of Return Achieved 50% of the Time (since 03/31/2006)

**Our Investment Strategy**

Our endowment portfolio is managed with a time horizon of infinity. Time horizons this long require different choices than most private investors have made for their personal situations. The goal is to achieve an investment return that sustains charitable grants and the foundation operations over time, not to beat the “stock market”. The portfolio is guided by a detailed formal Investment Policy Statement (posted on our website).
