

Interview with Faculty

Give an example of how the mission of your program aligns with the mission of WCCS.

How does faculty in your program participate in governance of the college.

Do you have community partners? Who are they? How are they involved with your program?

How do you have input into your program budget? Describe your involvement. Who prepares the budget? Is it adequate?

Interview with Faculty

Do you have enough student services (counseling), and tech support to support the program?

In the last 5 years, have there been formal student complaints against the program? Was it resolved according to the college's grievance policy? Where is the grievance policy located?

Do you have sufficient faculty to meet your program outcomes?

Describe your faculty's workload to include theory/lab hours, planning, and advisement.

Interview with Faculty

How do faculty stay current with best educational practices?

How are course evaluations used to improve instructional practices?

How is your curriculum developed and reviewed? Is there an opportunity for business and industry input?

How do you use the data obtained from student learning outcome assessments to improve the program? Give an example

Interview with Faculty

Are the physical resources of the program (equipment, classrooms, skills lab, computer labs, office space) sufficient to meet faculty and student needs?

**Are faculty involved in selecting learning resources for the program (software, library material, AVs)?
Can faculty make requests for materials to meet program needs?**

How is technology used in the program? Is assistance available for students and faculty?

Interview with Faculty

Discuss the Program Strengths?

Discuss the program's weaknesses and plans for improvement.

What kind of work positions are new graduates assuming? How are you tracking this information?
