GEAR UP FOR COMMUNITY WOW

Welcome to COMMUNITY WOW! You will have the opportunity to interview with competitive companies in West Alabama. You are guaranteed at least three interviews.

IMPORTANT STUFF

What is Community WOW?

Community WOW allows you to engage with employers, even interviewing for part-time and full-time jobs. Community WOW continues your future, whether you choose college or career following graduation.

Who should attend?

High school seniors who wish to enter the workforce full-time following graduation or high school seniors who want to work part-time while attending college should attend. This event is also perfect for seniors who don't have a solidified plan following graduation, as they can learn more about apprenticeships, training opportunities and funding options.

How should I prepare?

You will interview with real employers at Community WOW. Make sure you research employers attending and brush up on your interview skills. You will be provided a copy of your registration profile. Bring a copy of your resume if desired.

Who will I interview with?

A human resources panel of business professionals will review your profile at the event and pair you with a company based on your interests and experience. You can express which companies you're interested in interviewing with, but the panel will make the final decision. You are guaranteed at least three interviews.
