Board of Directors Tuscaloosa County Park and Recreation Authority Tuscaloosa, Alabama

We have audited the accompanying general purpose financial statements of the Tuscaloosa County Park and Recreation Authority, as of and for the year ended September 30, 2011, as listed in the table of contents. These general purpose financial statements are the responsibility of the management of Tuscaloosa County Park and Recreation Authority. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Tuscaloosa County Park and Recreation Authority, as of September 30, 2011, and the results of its operations and cash flows of its proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 3-5 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements referred to above taken as a whole. The accompanying supplemental information is presented for purposes of additional analysis and is not a required part of the general purpose financial statements of the Authority. Such information has been subjected to the auditing procedures applied in the audits of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements of the Authority taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on it.

Board of Directors Tuscaloosa County Park and Recreation Authority Tuscaloosa, Alabama

We have audited the financial statements of the Tuscaloosa County Park and Recreation Authority, as of and for the year ended September 30, 2011, and have issued our report thereon dated January 17, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Tuscaloosa County Park and Recreation Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Authority's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are to be required to be reported under *Government Auditing Standards*.

This report is intended for the Board of Directors, the Board's Finance Committee, management, City of Tuscaloosa, Tuscaloosa County Commission, City of Northport and relevant pass-through entities and it is not intended to be and should not be used by anyone other than those specified parties.

Tuscaloosa County Park and Recreation Authority Management's Discussion and Analysis September 30, 2011

This section of the Tuscaloosa County Park and Recreation Authority's annual financial report presents our discussion and analysis of the Authority's financial performance during the fiscal year that ended September 30, 2011. Please read it in conjunction with the Authority's financial statements, which follow this section.

Financial Highlights

- The Authority's governmental assets exceeded its liabilities by \$32,066,751 (net assets) for the fiscal year reported, and business-type activities (golf course) assets exceeded liabilities by \$1,888,541.
- Local government appropriations amounted to 82% of total governmental activities revenues in the current fiscal year as compared to 77% in the prior fiscal year.
- Revenues from charges for services were \$1,852,097 in the current fiscal year compared to \$1,892,724 in the prior fiscal year.
- The Authority's proprietary fund reported total revenues of \$1,380,219 this year. This compares to \$1,353,200 for the prior year.
- The Authority' proprietary fund reduced outstanding debt by \$236,529 through regularly scheduled debt payments.
- The Authority increased capital assets by \$2,926,349 primarily through park improvements, purchase of equipment and construction of a new activity center.

Overview of the Financial Statements

• This annual report consists of three parts — management's discussion and analysis, basic financial statements, and required supplementary information. The basic financial statements include: (1) Authority-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. The Authority also includes in this report information to supplement the basic financial statements.

The GASB Statement 34 concept of government-wide reporting focuses on reporting information about entities as a whole, using methods similar to those of private sector companies. They report net assets – the difference between assets and liabilities – as one way to measure financial health.

Financial Analysis of the Authority taken as a Whole

Net Assets - The Authority's net assets increased \$1,548,797 during the year. A comparison of the Authority's net assets is shown as follows:

Revenues in the governmental fund are derived from local government appropriations and charges for services. Revenues in the proprietary fund are derived from charges and fees for use of the golf course.

Economic Factors

Please read the following annual financial report illustrating Tuscaloosa County Park & Recreation Authority's financial performance during the fiscal year ended September 30, 2011 in conjunction with the following statements.

Tuscaloosa County Park and Recreation Authority Management's Discussion and Analysis September 30, 2011

PARA's growth during this time is due in part to a dedicated staff and elected officials. The vital need for recreation opportunities in this growing community is matched by PARA's need to constantly upgrade its current facilities as well as to expand. With an active, growing university population and a diverse industrial community that includes major automobile manufacturers, continuing growth is both inevitable and desired. Studies show economic growth often stems from a rising number of residents who wish to live and work in places surrounded by maintained park spaces and recreational opportunities provided by these spaces. Additionally, scenery and recreational opportunities are influencing decisions about where people choose to live and do business.

By providing a safe, healthy environment for citizens to enjoy a variety of parks and open spaces, PARA is making an investment in economic progress. The following report includes details and a listing of sites managed by PARA. The report shows PARA offers this community a large variety of amenities with the only debt the financing of construction costs from the golf course, park land and certain equipment. You are invited to Live, Learn, Play! PARA.

Contacting the Authority's Management

This financial report is designed to provide our citizens and taxpayers with a general overview of the Authority's financial operations and to demonstrate our commitment to public accountability for the funds received. If you have questions about this report or would like to request additional information, contact the Tuscaloosa County Park and Recreation Authority, Gary Minor, Executive Director.

Tuscaloosa County Park and Recreation Authority Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended September 30, 2011

Net Change in Fund Balances - Total Governmental Funds

1,176

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount which capital assets of \$3,527,671 exceeded depreciation of \$1,320,195 in the current period.

Note 1 Summary of Significant Accounting Policies

The financial statements of the Tuscaloosa County Park and Recreation Authority, hereinafter referred to as the "Authority", have been prepared in conformity with United States of America generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's policies are described below.

Reporting Entity — In evaluating how to define the Authority for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth in GAAP. The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financial relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no component units included in the financial statements.

The Tuscaloosa County Park and Recreation Authority, an eight member body, was originally established on September 3, 1969, under the provisions of Act No. 1248, Acts of Alabama 1969. The Authority reincorporated September 1, 2000 under the provisions of Act 2001-106 of the Alabama Legislature.

The Authority is accountable for all of the information presented in the financial statements. The Authority is considered a related organization under the Government Accounting Standards Board (GASB) requirements, which defines organization's for which a primary government (the county) is accountable because that government appoints a voting majority of the board, but is not financially accountable.

Basis of Presentation

The government-wide financial statements (the statement of net assets and the statement of activities) report information on all of the activities of the Authority. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program

Note 1: (Continued)

Fund Financial Statements

The Authority segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

Governmental funds are those through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balances of current financial resources. The Authority has presented the following major governmental funds:

General Fund – The Authority primarily received revenues from appropriations from local governing bodies and charges for services provided by the Authority.

Special Revenue Funds – The Authority had the following Special Revenue Funds:

Employee Fund to account for the receipt and expenditures of funds contributed solely by the employees. No public funds are involved.

<u>Foundation Fund</u> to account for the expenditure of resources for the Park and Recreation Foundation.

<u>Veterans Memorial Fund</u> to account for the expenditure of donations to the Veteran's Memorial Fund.

<u>Capital Projects Funds</u> are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Authority has the following Capital Projects Funds:

Beer Tax Fund to account for the expenditure of the beer tax distribution that is restricted for capital outlay expenditures.

<u>Capital Improvements Fund</u> to account for the expenditure of resources allocated for capital improvements.

<u>Fiduciary Fund Types</u> are used to account for resources held by the Authority in a trustee capacity or as an agent for other organizations or individuals. Assets of fiduciary fund types do not belong to the Authority; the Authority has a liability to disburse those assets to specific individuals or organizations.

<u>Agency Funds</u> – These funds are used to account for assets which belong to other organizations and individuals. The Authority collects these assets and transfers them to the proper parties. The Authority has one Agency Fund:

<u>Facility Fund</u> to account for damage deposits paid by individuals and organizations to reserve picnic shelters, ball fields, and other facilities.

<u>Proprietary Fund Type</u> – Enterprise Fund is used to account for the operations of an 18-hole public golf course, Ol Colony Golf Course, on land leased under a long-term lease from the State of Alabama. The measurement focus is on determination of net income.

Note 1 (Continued)

Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net assets and the operating statements presented increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures are recorded only when payment has matured and will be payable shortly after year-end.

Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings	20-40 Years
Parks and Improvements	10-25 Years
Machinery and Equipment	5-10 Years

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred.

Note 1: (Continued)

The revenue that was accrued is the beer tax from Tuscaloosa County in fiscal year 2011 and reimbursement for tornado damage expenses. Other revenues are not material or generally susceptible to accrual because they are not measurable until received in cash.

<u>Cash</u> – Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

Estimates and Assumptions – The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Compensated Absences – The Authority has a standard leave policy for its full time employees as to sick and annual leave. Permanent employees begin to accrue annual leave after successful completion of the probationary period, but may not utilize such leave until one full year of service. Thereafter, annual leave is accrued on the individual's employment anniversary date. An employee may not accrue more than twenty days of annual leave. Sick leave is accrued at the rate of 1.25 days per calendar month.

The Financial Accounting Standards Board (FASB) requires the accrual of a liability for future vacation, sick or other leave benefits that meet all of the following conditions:

- a. the employer's obligation relating to employees' rights to receive compensation for future absences is attributable to employees' services already rendered,
- b. the obligation relates to rights that vest or accumulate,
- c. payment of the compensation is probable,
- d. the amount can be reasonably estimated.

The unpaid leave liability for all full time employees of the Authority at September 30, 2011 was \$852,802. A schedule by individual employee is available upon request by the Mayor of Northport, Mayor of Tuscaloosa, or the Probate Judge of Tuscaloosa County. The schedule is on file at the office of LAWRENCE, HITT & PUGH, LLP and Tuscaloosa County Park and Recreation Authority.

<u>Fund Equity</u> – Reserves represent those portions of fund equity not appropriated for expenditures or legally segregated for a specific future use.

<u>Interfund Transactions</u> – Routine transfers of resources between Authority funds which are intended to be repaid are classified separately from fund revenues and expenditures. Such routine interfund transfers are identified as Operating Transfers In/Out in the Authority's operating statements.

Note 2 Budgets and Appropriations

The Authority's enabling legislation requires adoption of an annual budget.

The budget is usually divided into two parts, an operating budget and a capital budget. The operating budget addresses the immediate problems of providing services, paying personnel, travel and equipment. The capital budget addresses major equipment and furniture purchases, and public works projects. The Authority accounts for capital outlay expenditures in the General Fund therefore the operating budget and the capital outlay budget were integrated.

The Authority prepares it annual budget on a basis (budget basis), which differs from generally accepted accounting principles (GAAP basis). The budget and all transactions are presented in accordance with the Authority's method (budget basis) in the Statement of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual – (Budgetary Basis) – General Fund, to provide a meaningful comparison of actual results with the budget. The major differences between budget and GAAP basis are that in the capital outlay portion of the budget, encumbrances are recorded as the equivalent of expenditures (budget) as opposed to a reservation of fund balance (GAAP).

Note 3 <u>Deposits</u>

At September 30, 2011, the carrying amount of the Authority's deposits was \$1,793,026 and the bank balance was \$2,657,949. All accounts are fully insured by FDIC insurance and under the SAFE program of the State of Alabama.

Note 4 Capital Assets - Capital asset activities for the year ended September 30, 2011 were as follows:

	<u> 10/1/10</u>	<u>Additions</u>	<u>Deletions</u>	9/30/11
Land	\$ 2,043,370	\$	\$	\$ 2,043,370

Note 5 Due from Other Governments and Agencies

Amounts due from other governments and agencies at September 30, 2011 totaled \$174,946. This amount is comprised of \$11,471 due from Tuscaloosa County Commission for beer tax proceeds and was received by October 31, 2011 and \$163,475 due from Red Cross and State of Alabama for reimbursement of storm damage costs.

Note 6 Defined Benefit Pension Plan

Plan Description

Tuscaloosa County Park and Recreation Authority (PARA) contributes to the Employee's Retirement System of Alabama, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for the various state agencies and departments.

Substantially all employees are members of the Employees' Retirement System of Alabama. Membership is mandatory for covered or eligible employees of the Tuscaloosa County Park and Recreation Authority. Benefits vest after 10 years of creditable service. Vested employees may retire with full benefits at age 60 or after 25 years of service. Retirement benefits are calculated by two methods with the retiree receiving payment under the method that yields the highest monthly benefit. The methods are (1) minimum guaranteed, and (2) formula, of which the formula method usually produces the highest monthly benefit. Under this method retirees are allowed 2.0125% of their average final salary (best three of the last ten years) for each year of service. Disability retirement benefits are calculated in the same manner. Pre-retirement death benefits in the amount of the annual salary for the fiscal year preceding death is provided to plan members.

The Employees' Retirement System was established on October 1, 1945, under the provisions of Act 515, Acts of Alabama 1945, for the purpose of providing retirement allowances and other specified benefits for State employees, State police and, on an elective basis, to all cities, counties, towns and quasi-public organizations. The Responsibility for general administration and operations of the Employees' Retirement System is vested in the Board of Control. Benefit provisions are established by the <u>Code of Alabama</u> 1975, Sections 36-27-1 through 36-27-103, as amended, and Sections 36-27-120 through 36-27-139, as amended, and Sections 36-27-120 through 36-27-139, as amended, and Section 36-27B-1 through 36-27B-6. Authority to amend the plan rests with the Legislature of Alabama. However, the Legislature has granted the Commission authority to accept or reject various Cost-of-Living-Adjustments (COLAs) granted to retirees.

The Retirement Systems of Alabama issues a publicly available financial report that includes financial statements and required supplementary information for the Employees' Retirement System of Alabama. That report may be obtained by writing to The Retirement Systems of Alabama, 135 South Union Street, Montgomery, Alabama 36130-2150.

Funding Policy

PARA employees are required by statute to contribute 5% of their salary to the Employees' Retirement System. PARA is required to contribute at an actuarially determined rate of annual covered payroll. The contribution requirements of plan members and PARA are established and may be amended by the RSA Board of Control.

Annual Pension Cost

PARA has elected to implement GASB 27, Accounting for Pensions by State and Local Governmental Employers as of September 30, 1998. Retirement contributions were based on 4.65% of annual payroll as determined by RSA. This rate was based on the September 30, 1995 valuation report provided by Buck Consultants to RSA. For the September 30, 1996 valuation, RSA adopted GASB 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, and GASB 27, Accounting for Pensions by State and Governmental Employers. The effect of this change resulted in PARA's annual required contribution rate decreasing initially to 3.86% of covered payroll. This rate is currently 3.17%, effective for contributions made during the 2003-2005 fiscal year ending September 30, 2005.

Note 6 (Continued)

For September 30, 2011 the Authority's annual pension cost of \$134,734 for PARA employee pensions was equal to PARA's required and actual contributions. The required contributions were determined as part of the September 30, 1998 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 8.0% investment rate of return (net of administrative expenses), (b) projected salary increases ranging from 4.61% to 7.75% per year, and (c) no cost of living adjustment. Both (a) and (b) included an inflation component of 4.5%. The actuarial value of PARA employee pension assets were determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. PARA unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at September 30, 2011 was 30 years.

Trend Information and Required Supplemental Information

As of the September 30, 1998 valuation report provided by RSA, the net pension benefit obligation (NPO) at transition was determined in accordance with GASB 27, and the balance at September 30, 1998 was zero. The following table shows the NPO for the year of transition:

Fiscal	Annual	Percentage	Net
Year	Pension	of APC	Pension
Ending	Cost (APC)	Contributed	Obligation
9/30/06	\$ 121,241	100%	\$ -0-

As of September 30, 2009 valuation report provided by RSA, the following table illustrates the funding progress of PARA's employee pension plan.

Actuarial	Actuarial Value of	Actuarial Accrued Liability (AAL)	Unfunded AAL		Covered	UAAL as a Percentage of Covered
Valuation	Assets	Entry Age	(UAAL)	Funded	Payroll	Payroll
Date	(a)	(b) ¹	<u>(b-a)</u>	Ratio (a/b)	(c)	(b-a)/c)
9/30/042	3,828,486	3,669,563	(158,923)	104.3	2,006,641	(7.9)%
9/30/05	4,069,282	3,992,428	(76,854)	101.9	1,989,356	(3.9)
9/30/063	4,273,542	4,439,936	166,393	96.3	2,131,486	7.8
9/30/07	4,612,653	4,736,106	123,453	97.4	2,539,861	4.9

9/30/09	4,840,127	5,709,365	869,238	84.8	2,920,087	29.80

- 2. Reflects effect of DROP if unit elected to enroll prior to August 4, 2005.
- 3. Reflects changes in actuarial assumptions.

Note 7 <u>Deferred Compensation</u>

Employees of the Tuscaloosa County Park and Recreation Authority may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457.

The deferred compensation plan is available to all employees of the Authority. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency.

Note 7 (Continued)

The deferred compensation plan is administered by an unrelated financial institution. The assets of the plan are held by a trust for the exclusive benefit of participants and their beneficiaries. Accordingly, these funds are not shown as assets of the Authority, as provided in Statement 32 of the Governmental Accounting Standards Board.

Note 8 Long-Term Debt

Proprietary Fund

Revenue Bonds - Series 2000 was issued to finance part of the cost of the golf course. Interest is payable quarterly, at a variable rate, with principal paid annually on September 1, beginning in 2003. Final maturity is September 1, 2020. These bonds are guaranteed by Tuscaloosa County, which provides annual appropriations to pay principal and interest payments due.

Debt service requirements in future years are:

FYE	
September 30	Total
2012	\$ 83,378
2013	87,547
2014	95,885
2015	100,053
2016	104,222
Thereafter	1,698,963

<u>Capital Lease</u> – Certain equipment used in the golf course operations is leased under capital leases. The assets and liabilities under the capital lease is recorded at the lower of the present value of the minimum lease payments or the fair value of the assets. The assets are depreciated over the lower of then related lease terms or their estimated useful lives. Depreciation of assets under capital leases is included in depreciation expense. Following is a summary of property held under capital leases:

Turf Maintenance Equipment	\$ 5,586
Turf Maintenance Equipment	51,093
Turf Maintenance Equipment	13,569
Turf Maintenance Equipment	24,160
Turf Maintenance Equipment	26,500
Turf Maintenance Equipment	<u>38,903</u>
	159,811
Less: Accumulated Depreciation	<u>46,118</u>
-	\$ 113,693

Minimum future lease payments under capital leases as of September 30, 2010 and for future years are:

FYE	
September 30	Amount
2012	\$ 47,233
2013	35,669
2014	15,554

Note 8 (Continued)

Note Payable - Bank - Loan secured by golf course maintenance equipment, payable \$2,433.71 per month, including interest at 4.2%. Principal payments are as follows:

FYE	
September 30	Amount
2012	\$ 14,459

Changes in long-term indebtedness during the fiscal year were:

Outstanding Debt at October 1, 2010	\$ 3,274,423
Redemptions and Payments	<u>(483,090</u>)
Outstanding Debt at September 30, 2011	<u>\$ 2,791,333</u>

- Note 9: <u>Loan Payable Tuscaloosa County Commission</u> These funds were used to purchase land in Tuscaloosa County on Hurricane Creek. The loan is due on demand with interest payable monthly at 2.5%.
- Note 10: Operating Leases The Authority leases certain golf course equipment under leases from 36 to 48 months. Future minimum rental commitments are as follows:

FYE	
September 30	<u>Amount</u>
2012	\$ 38,539
2013	24,475
2014	14,277

Note 11: <u>Subsequent Events</u> – The Authority has evaluated subsequent events through March 1, 2012, the date the financial statements were available to be issued.
