Approval of minutes from May 21, 2018 meeting

Financial reportRick Harbin

Project updates:

ALDOT-led projects.....David Kemp & Brad Darden

NOTE: Bear Creek Intersection project: ALDOT has provided notice to the TCRIC that June 2018 project expenditures have resulted in \$157,411 of overrun, with less than \$100,000 in remaining costs projected. This is primarily due to project change orders that have occurred during the life of the project. Final project audit and expenditures will likely be available from ALDOT in July, at which time the Commission will consider a resolution for approval of the cost overruns. See attached expenditure information.

Tuscaloosa County-led projectsScott Anders

NOTE: Martin Road project: Tuscaloosa County has provided notice to the TCRIC that April/May 2018 project expenditures have resulted in a projected overrun of approximately \$278,000 from the \$1.1M project cost previously approved by the Commission. This projected overrun could resolve itself depending on total costs incurred by ALDOT, who has committed \$300,000 to the total project cost and expended approximately \$20,000. See attached expenditure information and memorandum to Commission members from counsel.

City of Tuscaloosa-led projects, including BUILD grant proposal Tera Tubbs

See attached information on BUILD grant from MPO Citizens’ Advisory Council meeting.
