 GRD – Grease Removal Device  
 OCE- Office of City Engineer  
 COT- City of Tuscaloosa  
 SOP – Standard Operating Procedure  
 FOG – Fats, Oil, and Grease  
 LDP – Land Development Permit

- NOTES**
- Food service establishment (FSE) is a business that requires a food service permit issued by the local county health department.
  - FOG facility plan is designed and certified by a professional engineer or architect licensed in the state of Alabama.
  - Wastewater or OCE can size interior grease trap for code compliance. Any required plumbing plans for grease trap installation are the responsibility of the Owner.
  - Grease Removal Device (GRD) sizing shall be in accordance with the City of Tuscaloosa "Fats, Oil, and Grease (FOG) Management Program" 2014. This document is also referred to as the "FOG Manual".
