Worldwide Air Coolers announces the addition of the McElroy's latest generation Fintube machine to our growing line of capabilities. With this addition, our capacity has increased to allow us to begin offering fintube parts sales. Worldwide Air Coolers can offer both L-Foot (Wrap-On) and Imbedded (Grooved Fin) finning to meet retube and turn-around needs.

Worldwide Air Coolers aluminum finning applications are available in a variety of configurations including 8-11 fins per inch, tube OD's from 5/8" to 1.25" and

lengths up to 60 feet. L-Foot is offered in applications up to 350°F while Imbedded is proven in applications to 650°F.

Complete retube services of your air cooler bundle are provided in our facility near Tulsa, Oklahoma or we will support your field operation with engineering know-how and quality replacement parts for all brands.

Contact Worldwide Air Coolers at 918-388-7191 or AirCoolers@sheco.com and let us help your project be successful.
